Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1, 5, 9, 13, 17 and 21 are rejected under 35 U.S.C. 102(e) as being anticipated by Galant (US 6,839,686).

As per claim 1, Galant teaches a computer program product, tangibly embodied in a machine-readable storage device, the computer program product being operable to cause data processing apparatus to perform operations comprising:

displaying, on a display device, a transaction screen containing data for a transaction, waiting to receive user input to the transaction screen, and automatically refreshing the

Art Unit: 2174

transaction screen with updated data if user input is not received within a pre-determined period of time (fig. 3; col. 7, lines 40 et seq.; *Auto Refresh Tab 143a being used to automatically refresh the transaction screen if user input is not received within a certain amount of as set by a timer*).

Claims 5, 9, 13, 17 and 21 are individually similar in scope to claim 1, and are therefore rejected under similar rationale.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 2, 6, 10, 14, 18 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Galant (US 6,839,686) in view of Wright et al. ("Wright", US 7,089,508 B1).

As per claim 2, while Galant teaches the step of starting a timer that times out after a pre-determined period of time has lapsed, and once the timer times out, automatically refreshes the screen with updated data (col. 7, lines 46-48), Galant does not teach the use of simulating a user input to request for the screen to be refreshed. However, such a step is known in the art. For instance, Wright teaches the use of simulating a user input to maintain the current display information (col. 5, lines 46-54; *a pseudo user input would be generated which inherently keep the screen refreshed with current display information*).

Art Unit: 2174

Claims 6, 10, 14, 18 and 22 are individually similar in scope to claim 2, and are therefore rejected under similar rationale.

Response to Arguments

5. Applicant's arguments with respect to claims 1-2, 5-6, 9-10, 13-14, 17-18 and 21-22 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

6. Claims 3-4, 7-8, 11-12, 15-16, 19-20, 23-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 3, 7, 11, 15, 19 and 23 are allowable over the art of record because the art of record does not disclose the recited limitations.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 2174

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
